

T.F.T.T.

LOS ANGELES COURSES SEPTEMBER 2011

TACTICAL FIREARMS TRAINING TEAM (TFTT) has been providing cutting edge tactical instruction and on-site advisory assistance for Police and Military Special Response Teams worldwide for over 20 years. We have earned an outstanding reputation with operators as a demanding and prestigious school. Our programs are both realistic and demanding. Our staff has trained thousands of police officers and soldiers from the U.S. and operators from over 30 different countries. We are extremely proud of the quality of instruction we offer. Tactical Teams worldwide have rated our programs as the best they have ever experienced. We are professionals who look for, expect, and achieve outstanding progression from our students.

PSD/VIP PROTECTION COURSE

SEPTEMBER 6-10, 2011 • TUITION - \$850.00 • LOCATION - LOS ANGELES, CA

The rise of extremism both overseas and here in the United States has driven the need for trained protection officers to new heights. Threats from criminal organizations, extremist groups and terrorist operatives are increasing both at home and abroad. High level threats against witnesses, suspects, judges, visiting dignitaries and other government officials can only be dealt with by highly trained operators. These operators act as a very effective deterrent to violence against a principle, or in extreme situations a shield against a direct attack. From everyday low level escorts to high profile protective details, the training delivered by TFFT is by far the best for your money. Course includes range work, classroom, and a final training exercise in town. This training module encompasses a wide variety of essential skills for personnel operating on a protective detail. Max Joseph and the other instructors on this course have worked VIP details in the most high-risk areas of the world, and we promise to give you the most up to date, cutting edge VIP Protection training you will find anywhere.

50 Hour Certificate provided upon successful course completion.

COURSE OBJECTIVES:

- Extensive Live Fire Counter Attack Drills
- Organization of a Protective Detail
- Walking Drills
- Close Protection Drills
- Advance Work
- Explosive Device Recognition
